What's included in the 'All in One...' Photo Package?

- **You Always Get The Same** - No need to choose a level of coverage. You always get the works. It's the 'All in One...' package.
- **Full-Day Coverage** - From Bridal Preparations to Evening Reception.
- **All Locations Covered** - Home / Church / Reception etc.
- **Unlimited Photos Taken** - Usually around 800-1500 depending on how big your Wedding is. Images taken as RAW Format files and edited ready to print. Supplied as full-size & quality JPEGs / TIFFs. (RAW Files available on request).
- **Copyright Ownership** - Given to you so you can print and share the image files as you wish.
- **Choice of Storybooks** - Small or Large, various finishes, colours and styles. The books are the only thing that alters the price of this package.

Prices

'All in One...' Photo Package from only £690.00 - This price includes a 20 page 'Petalo' Italian 20x20cm Storybook in matt finish.
(Prices only vary depending on the Storybooks you choose to include. These are listed on Pages 7 & 8).

What's included in all of the 'Cinematic Video' Packages?

- **Full-Day Coverage** - From Bridal Preparations to Evening Reception.
- **All Locations Covered** - Home / Church / Reception etc.
- **The 'Video Highlights' Parts of the Day** - The following parts of the day are filmed on-the-go with Gimbal Video Cameras for smooth cinematic camera motion and portability. **Bridal Preparations, Groom & Groomsmen, Guests Arriving, The Venue Inside & Out, Room Decorations, Drinks Reception, Group Photos, Bride & Groom Personal** (walkabout, away from the guests while photographs are taken of the two of you), Reception Fun & Games. Music is applied as a soundtrack to these parts. Either chosen by you, what was used on the day, or something completely different.
- **The 'Full Multi-Camera Filming & Audio' Parts of the Day** - The **Ceremony, Speeches and First Dance** (& Father Daughter Dance etc.) are all recorded from multiple camera angles at different zoom and wide angle stages. High Definition Audio Recorders are placed near where you will speak to record everything.
- **The Finished Movie** - This is usually around **45 minutes to 1 hour in length** depending on how long the Ceremony & Speeches are etc. Three DVDs are supplied printed to and boxed, one for the Bride & Groom and one for each side of the family as gifts. The MP4 computer file is also provided on USB which plays back at full quality, as DVD is older technology and lower resolution.
- **Drone Coverage** - This is included wherever possible and is dependent on the venue, location and weather. The goal is to capture amazing establishing shots of the venue and grounds, plus some extra video from above for the Bride & Groom after the Group Shots have been taken and the Bride & Groom are having their 'signature portraits' taken. (PfCo Licensed & Insured)

Prices

'Cinematic Video' Package Only - From £790.00

'Photo-Video Combo' Package - From £990.00 (see page 5 for details)

Add a Short Show Reel Movie - £250.00 (A 3-5 minute reduced version of the main movie with music for the soundtrack)

The 'Photo-Video Combo' Package Explained...

Combines the 'All in One' Photography service with the 'Cinematic Video' Package for full coverage in both formats.

- **Photos are taken using dedicated full-frame D-SLR Stills Cameras** - We do not capture stills from motion video. Photos are shot in RAW Format and are provided in full-size and quality JPEG or TIFF format. RAW files available on request.
- **Video is Recorded in High Definition and High Frame Rate** - Using portable Gimbal Video Cameras for all the on-the-move parts of the day, it is easy to switch from this video camera, to the stills camera to ensure dual coverage. Footage is cinematic and smooth. High frame rates allow for silky smooth slow-motion for parts of the movie.
- **Ceremony, Speeches and First Dance** - These sections of the day are filmed with multiple video cameras from different angles and different zoom and wide angle stages and are remotely controlled. High Definition Audio Recorders are placed near where you will speak to record everything. Photos are also taken throughout these parts of the day in the normal way, while making sure the video cameras are doing their job too.
- **Drone Coverage** - This is included wherever possible and is dependent on the venue, location and weather. The goal is to capture amazing establishing shots of the venue and grounds, plus some extra video from above for the Bride & Groom after the Group Shots have been taken and the Bride & Groom are having their 'signature portraits' taken. (PfCo CAA Licensed & Insured).
- **The Finished Movie** - This is usually around 45 minutes to 1 hour in length depending on how long the Ceremony & Speeches are etc. Three DVDs are supplied printed to and boxed, one for the Bride & Groom and one for each side of the family as gifts. The MP4 computer file is also provided on USB which plays back at full quality, as DVD is older technology and lower resolution.
- **The Finished Photos** - These are supplied on USB in full-size format as JPEGs or TIFFs, ready to print and share. A folder of all photos in smaller screen-size are also included, making it easy to view on TV, Computer, Smartphones, Tablets, and upload to social media. Albums included in whichever package you choose, are supplied later on after you have chosen what's to be included and the book has been created.

Prices
